

1. Payment and Financing Schedule

The patient may choose from the following modalities to settle the treatment balance:

- **Two-Stage Payment:** A payment of **70%** of the total package value is required during the first visit (Surgical Phase). The remaining **30%** must be settled at the beginning of the second visit (Rehabilitation Phase), which typically occurs 4 to 6 months after the initial surgery.
- **Prepayment:** Patients have the option to pay **100%** of the total package value during the first visit.

2. "Closed Package" and Non-Refundable Policy

- **Global Pricing:** Package prices represent a single, global fee for a set of services designed to ensure treatment success and safety.
- **Courtesy Logistics Services:** Transportation within the Cancun Hotel Zone and lodging at the hotel offered in the current promotion are courtesy benefits included to facilitate clinical follow-up.
- **No Deductions for Non-Use:** If the patient chooses not to utilize the offered hotel, transportation, sedation, or medications (in packages where they are included), no discount, credit, or refund will be applied to the total package cost.

3. Clinical Criteria and Implant Quantity

Each package includes a maximum number of units based on the diagnosis:

- **Single Arch (Regular):** Up to 4 (Bronze/Silver), up to 5 (Gold), or up to 6 (Platinum).
- **Both Arches (Regular):** Up to 8 (Bronze/Silver), up to 10 (Gold), or up to 12 (Platinum).
- **Zygomatic Both Arches:** Includes up to 8 implants total (maximum of 2 zygomatic and 6 regular).
- **Zygomatic Single Arch (Upper):** Includes a total of 4 implants (2 zygomatic and 2 regular), as well as the 4 necessary abutments for rehabilitation.
- **Medical Determination:** The exact number of implants will be determined exclusively by the surgeon based on the patient's anatomy. If clinical reasons require fewer implants than the specified maximum, the total price will not be reduced, as the value lies in the complete functional rehabilitation.
- **Excess Costs:** Any additional implant exceeding the package limit will have an extra cost of **\$800 USD** per regular implant and **\$2,400 USD** per zygomatic implant.

4. Temporary Dentures and Healing Phase

- **Removable Temporaries:** All packages include removable acrylic temporary dentures to ensure functionality during the healing period. No refunds are issued if the patient declines use or if the doctor deems them non-viable for health reasons.
- **Fixed Temporary Option:** Should the patient request **fixed temporary dentures** over the implants (instead of removable ones), an additional cost of **\$950 USD per arch** will apply, subject to the doctor's evaluation and the patient's oral hygiene status.

5. Final Materials and Adjustments

- **Materials:** Final dentures are made of Diamond Thermoplastic or Zirconia, depending on the selected package.
- **Substitution:** If the patient selects a lower-cost material than what is included in their package (e.g., preferring acrylic when Zirconia is included), the total price remains unchanged and will not generate a credit balance.

6. Surgical Procedures and Special Charges

- **Grafts and Elevations:** In Gold, Platinum, and Premium Zygomatic packages, these are performed only if medically required. Otherwise, bone grafts and sinus lifts carry additional per-unit costs.
 - **Operating Room Fee (Zygomatic):** A **\$2,000 USD** fee for the use of an external Operating Room (OR) is **not included** in any Zygomatic package (Lite or Premium) and must be covered additionally by the patient if required.
-

7. Investment List per Package (2026 Prices in USD)

Single Arch Packages (Regular Implants):

- Bronze: \$6,450 | Silver: \$7,450 | Gold: \$8,450 | Platinum: \$8,950

Both Arches Packages (Regular Implants):

- Bronze: \$12,900 | Silver: \$14,900 | Gold: \$16,900 | Platinum: \$17,900

Both Arches Packages (Zygomatic Implants):

- Lite: \$19,100 | Premium: \$23,000
